HR70-14

Director's Meeting

Friday, 26 October 1951

Mr. Dulles reported on a JSPD draft report on planning for unconventional warfare in Europe. An interim board is to be created for the little Joint Chiefs of Staff in Europe, plus a CIA representative. The DCI asked Mr. Dulles to inform [] and the JSPD that while we agreed in principle we would prefer to wait until after Mr. Wisner's return before concurring.

Mr. Dulles reported that Gen. McClellan had seen []. In his conversation with [] it came out that the FBI had objected to [] as consultants, but so far had not passed on []. The question of present consultants will be raised at a committee meeting in the near future. The DCI said that General McClellan had better attend.

Mr. Larocque stated that G-2 had requested a number of NIEs for the Command and General Staff College, and that the National War College had requested two copies of the OCI Daily Digest on a continuing basis. The DCI is hesitant about such distribution and suggested that the question might be brought up before the IAC. Mr. Larocque will follow this with Mr. Dulles.
